

TOP 2012

Winchester, UK

September 16th-21st 2012

Organized by:

Veronique Boisvert, chair (Royal Holloway, University of London)

Lucio Cerrito (Queen Mary, University of London)

Akram Khan (Brunel University)

Stefano Moretti (University of Southampton)

Mark Owen (University of Manchester)

Giuseppe Salamanna (Queen Mary, University of London)

Christian Schwanenberger (University of Manchester)

5th International Workshop on Top quark Physics

Registration is open!

The deadline for registration is July 25th

Attendance will be limited to 150 physicists. Delegates are expected to attend the workshop for its full duration. The registration procedure, traveling and accommodation information is available from the workshop website.

The workshop will be held in the beautiful resort Norton Park Hotel in Winchester. Once its registration is approved by the organizers, the delegate will receive instructions on how to book the hotel online and how to pay online for the conference fee.

All sessions will be plenary with oral presentations by invitation only. A draft timetable is available on the website. There will be an excursion to the world-renowned medieval Winchester cathedral on the Wednesday afternoon. To provide young physicists an opportunity to contribute to the scientific programme, a poster session will be held in the majestic Winchester Great Hall accompanied by a drinks reception. In addition, two summer school sessions will be organized during the workshop. Information about the call for the organization of TOP 2013 can also be found on the website.
