

Online Software for M9

Murrough Landon
9 March 2015

- Status...

Status Summary

•Recent changes

- L1Topo configure procedure (to be tested)
- CMX Rates (to be tested)
- COOL DB schema changes: mainly for PPM
 - Also tweaks for Topo (and some CMX changes to be done)
- Hacks for latest trigger menu (new DetCommon "features")
- ROD simulation: CMX ~done, PPM first draft (to be tested)
- Miscellaneous fixes

•To be done

- More PPM COOL changes/tests
 - Still need to move from sqlite to Oracle...
- CMX calibrations to database
- L1Topo tuning (status publishing, TTC restart, etc, etc, etc)
 - Use controlhub for IPbus
